# POWERFUL IN EVERY WAY POSSIBLE

## STYLE, MUSCLE, PERFORMANCE. CHECK, CHECK AND CHECK.

From serious payloads to serious adventure, the 2017 Tacoma is ready whenever you are. Because this is not a truck to be taken lightly. It's a piece of serious engineering, built to take everything you and the world can throw at it, and still come back for more. With muscle that outperforms in ways that will surprise you from the moment you first hear its engine roar to life. And it's a truck that will get you respect wherever you ride, with sculpted, aggressive lines that are sure to turn heads. Not to mention premium accents and interior features that will make any drive a pleasure, whether it's on the highway or down a back-country road. If you're surprised, you shouldn't be. Toyota has been taking trucks this seriously for over 80 years, and the Tacoma is backed by our proud and rugged heritage. And you can count on that durability for years to come with the fact that over 90% of Toyota Pick-ups sold in Canada in the last 20 years are still on the road today.[1,2]

# COMFORT MEETS COOL

## DESIGNER STYLE AND COMFORT, PLUS ADVANCED TECHNOLOGY.

As rugged and powerful as it is, the 2017 Tacoma also makes plenty of room for comfort and style. The interior has been carefully designed to help you get the most out of every journey, with a refined, sporty interior that includes sophisticated soft touch materials and metallic accents. And while you maintain your grip on the road, you don't have to lose touch with anything on the outside world, thanks to an array of technologies and advanced features that are always within reach. If you weren't booting up a mountain road or hauling down a heavy load, you might almost forget you were driving a truck. Almost.

DISPLAY AUDIO SYSTEM[4] The available Display Audio System[4] with Navigation[5] features a 7-inch touch-screen with Bluetooth®[3] wireless music streaming and a unique "text-to-voice" feature that converts text messages from your phone into voice messages, which play through the vehicle's speaker system.

AVAILABLE Qi CHARGER Leave the charging cable at home. Simply place your Qi-compatible device on top of the nonslip surface to charge up.

GoPro® MOUNT ON WINDSHIELD Tacoma comes standard with an integrated GoPro® mount on the windshield, so you and your crew can share the good times with the world.

## CAPABILITY THAT GOES BEYOND THE EXPECTED.

Toyota Pick-ups are ingeniously capable, and built for serious adventure. When it comes to giving you what you need, the 2017 Tacoma delivers way beyond your expectations, which will make it the most exhilarating, enjoyable truck you'll ever drive. And that feeling comes from much more than simply how good it looks – it comes from how it's actually built and designed. The Tacoma has a high strength, triple tech frame to improve rigidity, as well as ride and handling. The bed itself is made of an ultra-durable, fibre-reinforced Sheet-Moulded composite surface that is dent-resistant and corrosion-free, with a greater impact strength than steel. Then there's the easy lower tailgate that opens using just two fingers, which can also be easily removed when needed. More than you expected? Perfect – that's just how we planned it.

## TRUCK DNA

### THAT GOES BACK A LONG, LONG TIME.

Performance, quality, and durability are in Tacoma's DNA. In fact, Toyota trucks are backed by a legendary, storied heritage, with over 80 years of proven dependability in the world's toughest terrain. Toyota trucks have had more entries in the Dakar Rally than any other brand. They were the first trucks ever driven to the Magnetic North Pole. And the South Pole. With a racing heritage that includes 304 off-road wins, 27 manufacturers championships, and 28 off-road drivers' championships, Toyota trucks are winners wherever they travel. Tested the world over, Toyota trucks are the perfect truck for Canada, giving you peace of mind year after year, from coast to coast.

# OVERBUILT TO PERFORM

## TOUGH, RUGGED, AND READY FOR EVERYTHING.

What makes the 2017 Tacoma the most exciting truck on and off the road today? Without a doubt, it's the ingenious pairing of sheer power and brute strength that a country like Canada demands. With both 4-cylinder and V6 options available and with your choice of Access Cab and Double Cab configurations, you can have the Tacoma that meets your needs perfectly. The 3.5 L Atkinson cycle V6 engine with D-4S Fuel Injection is particularly impressive, offering 278 hp at 6,000 rpm and 265 lb.ft. of torque at 4,600 rpm. Tacoma also features an available 6-speed automatic transmission with electronic shift to help deliver quick and easy shifting. Couple that with Tacoma's finely-tuned suspension for smooth on-road and "go anywhere" off-road performance, and you'll be able to make the most out of any obstacle. No matter where you go, this workhorse can take everything you need, with a towing capacity of up to 6,500 pounds. That's not just strong. That's Tacoma strong.

**TRAILER-SWAY CONTROL (TSC)** When a vehicle is towing a trailer, various weather, road, and steering conditions can result in dangerous trailer sway. Standard on all V6 models, Tacoma's TSC is a system that detects trailer sway and applies brake pressure at individual wheels and controls engine torque to help stabilize the trailer. The system also illuminates the stop lamps to alert drivers to the fact that your vehicle is decelerating.

**BILSTEIN SHOCKS** Available Bilstein shocks help soak up the heavy dips and bumps to deliver a ride so comfortable, you'll mistake the off-road for the blacktop. Tacoma also offers ventilated front disc brakes that deliver confident stopping power no matter how bad the road or weather conditions are.

**MULTI-TERRAIN SELECT** The available Multi-terrain Select system regulates wheelspin by automatically adjusting the engine throttle and brakes, helping improve traction.

**CRAWL CONTROL** Crawl Control automatically adjusts acceleration and braking when driving over jagged off-road terrain or on slippery surfaces and minimizes wheelspin and wheel lock-up.

# AS SAFE AS IT IS TOUGH

## STAYING SAFE IS ALWAYS THE FIRST PRIORITY.

There's no doubt there are a lot of things you can't wait to do with Tacoma. And you can do them all with confidence, thanks to Toyota's never-ending commitment to developing reliable and dependable safety technology. The 2017 Tacoma comes standard with 8 airbags[1] and our Toyota Star Safety System™, which includes active and passive safety features designed to help prevent accidents in the first place and help protect you in the event that a collision is unavoidable. So no matter where you're going, or what you want to do, you can do it knowing that Toyota has your back.

# DISCLAIMERS

(**1**) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (**2**) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (**3**) Do not use the hands-free phone system if it will distract you. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends upon software, coverage and carrier. (**4**) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (**5**) Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your Dealer. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (**6**) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. (**7**) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (**8**) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. (**9**) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (**10**) HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. (**11**) Payload = Passengers, Equipment, Luggage and Cargo. (**12**) Based on IHS Automotive: Polk Canadian vehicles in operation and new registrations MY 1996-2015 as of June 30, 2015. (**13**) ®Aeroplan and the Aeroplan logo are registered trademarks of Aimia Canada Inc..

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

**Toyota Canada Inc.** Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website **toyota.ca** – or your Toyota Dealer is your best source for up-to-date information.
